

Students entering 7th grade are now required to have **one dose of Tdap (tetanus, diphtheria, pertussis) vaccine and one dose of meningococcal conjugate vaccine** for individuals who have not already received those vaccines.

You will have 30 calendar days from the first day of school to provide the required up-to-date immunization record for your child. If proof of vaccination or exemption is not provided by the end of the 30 calendar day period, your child will be excluded from school until they provide this information as required by law.

Please contact your health care provider or local health department if your child needs these vaccines. For additional information about the vaccines and diseases they protect against visit the Centers for Disease Control and Prevention's website at www.cdc.gov/vaccines/who/teens/index.html. Please contact your school nurse if you have any questions regarding these requirements.
